

Are you ready to be a smart Meter Motivator?

Enn and Gee need your help! Pop around to your human grand-persons home or a friendly neighbour and get them up to speed on the smartest smart meters in the universe!

What kind of meter do your human grand-persons have?

If they already have a smart meter, job done! Fill out your certificate and help a neighbour!

SMART

TRADITIONAL

Can you find their gas meter?

It's not in the Outer Cerebra Andromeda! It might be outside in a white box.

FOUND IT!

Gas and electricity can be really dangerous so make sure you have the help of an adult before setting off as a Meter Motivator!

How easy is it for your earthling old-person to read it?

Like the dashboard of our Rocketpod, it might have dials or scrolling numbers – up high or down low!

Can you find their electricity meter?

Hint: You won't find it in the Tauceti Galcatic System! It may be under the stairs or in a cupboard...

FOUND IT!

How easy is it for your earthling old-person to read it?

Here's a tip: Use your mobile phone to take a photo of the meter so you can read the numbers!

Do your grand-persons know about smart meters?

Why not listen to our podcasts together? **Just search for Meter Motivator in Google or Apple Podcasts on your mobile phone.** Then you'll all be as smart as the Think Wranglers from Cerebra Nine!

YES!

NOPE.

Do your earthling old-people need the internet for a smart meter to work?

Smart meters use radio waves - a bit like listening to Enn and Gee on Fun Kids!

YES!

NO, THEY DON'T!

Do your grandparents know how they can check their energy usage if they have smart meters?

It's much easier, an in-house energy display puts the information in their hands, helping them to reduce waste and manage their energy use.

THEY DO NOW!

NO...

QUIZ!

Your humanoid neighbourlings and earthling grand-people might still have some questions. Try this quiz together and see how many questions you can get correct!

Remember, the answers to all these questions can be found in the Enn and Gee Energy Explained for Kids podcast!

1

Are smart meters likely to be in the same place as the old meters?

3

Are there separate smart meters for both gas and electricity?

5

If you prepay for your electricity on a card, a key or with coins can a smart meters still be installed?

7

Will the amount paid for energy change?

9

Are smart meters as safe as other electrical gadgets like kettles and the telly?

2

Will the road need to be dug up to install a smart meter?

4

Is the installation safe?

6

Will the in-house energy display show readings for both gas and electricity?

8

Can you choose when a smart meter is installed and even if you want one at all?

10

Is the information they send to the energy company safe & secure?

Congratulations!

You're officially a Smart Meter Motivator! Don't forget to fill out your certificate and hang it up for all to see.

CONGRATULATIONS!

has helped their earthling grand-people get smart about smart meters!
